Chief, Economic Research Area, ORR  
THRU : Planning and Review Staff, ORR  
Acting Chief, Industrial Division, ORR

12 July 1956

Project 34.1611, Ruble/Dollar Ratios for Machine Tools, Metalforming Machinery, Textile Machinery and Abrasives.

25X1A9a

1. [REDACTED] reviewed this report in its original form as a contribution to the area-wide project on ruble/dollar ratios (ORR No. 10.824). He felt that this paper was a good example of a branch contribution to an area-wide project that would warrant publication by itself.
2. The original report followed St/PR conventions so that a minimum of effort has gone into preparing a publication copy.
3. It is recommended that the project be approved for publication.
